

INSERTING SYSTEMS

PRODUCE
HIGH QUALITY
LOW COST
MAILINGS

✓ *The new MRD MC-12 Inserting System*

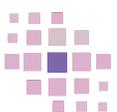

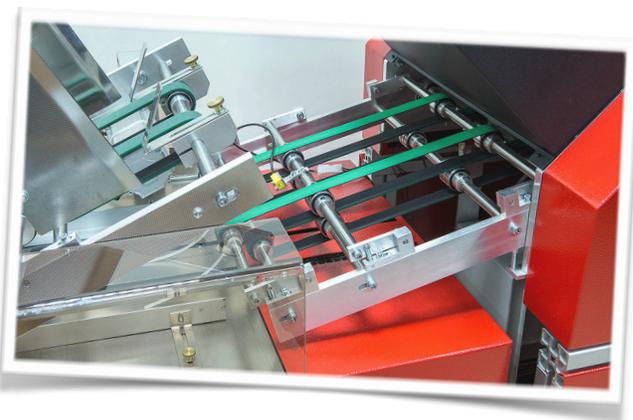

Low cost, high volume, medium speed inserter, designed thinking on today's demand: modular, flexible, and most important with a very small foot print.

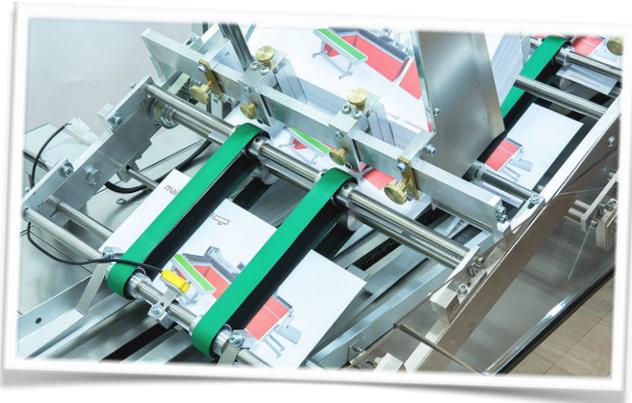

The MC12 is an All-in-one inserter capable to run #10, 6" x 9" and 9" x 12" envelopes, with option to add from 2 up to 10 insert stations, Turn over, lay down, read module, postage meter, ink jet printer and diverter.

✓ *Cost-Effective, Expandable, Flexible!*

The mailing and inserting system meets the changing market requirements for the production of personalized medium-run mailings. High productivity, large format and material spectrum and flexibility in finishing. More profitable processing of small orders.

***Achieve higher profitability
while lowering operating costs.***

✓ **Modular Expansion**

The document / inserts stations are modular, each module is equipped with 2 inserts station that can be extended up to 10 stations, read cameras can be also add it for matching control applications.

The system can be also integrated with a transaction / folding module capable to process various types of documents, sizes and thickness.

✓ **Functionality, Accuracy**

Optional use of OMR, BCR, 2D codes enhances the functionality of the entire system. It enables the grouping of documents for individual recipients, the selective addition of inserts and the recognition of possible errors in the order of the documents, submitted for processing.

The entire process of document processing, transport, folding, inserting and transporting of packed documents is tracked by the sensor system.

✓ **Specifications**

Inserter

Envelope Size: min 4" 1/8 h x 9"w / max 9"h x 12"w

Envelope weight: up to 32 lb.

Speed (env/h): #10 - 12,000, 6"x 9" - 10,000, 9"x 12" - 6,000

Inserts Stations

Inserts Size: min 3" 3/8 h x 2" 1/4 w / max 8" 1/2 h x 11" w

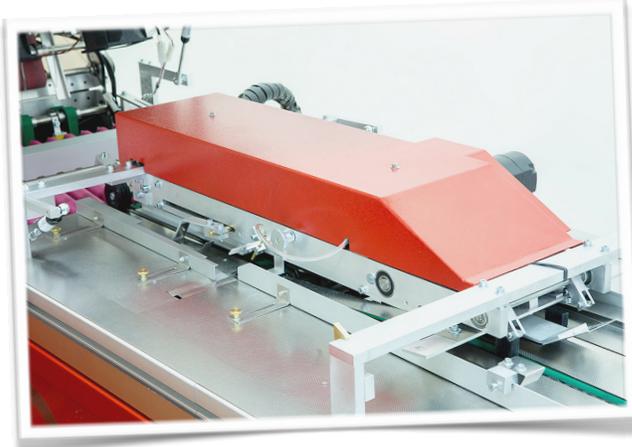

Thickness: min 0.01" / max 1/4"

Folding Module

Paper Size: min 3 3/8 h x 2 1/4 w / max 8" 1/2 x 14"

Paper weight: 16 - 53 lb. bond

Type of fold: C, V and Z

✓ **Your Advantage**

For years, CSG AUTOMATION has been specialized in the production, delivery, implementation, integration and maintenance of document processing systems.

With long experience and knowledge of customer needs, we provide a wide range of service and support options for each system sold.

***Configurations adapted to your needs.
